

NB Appendix
PRC-005-3-NB-0 Protection System and Automatic Reclosing Maintenance

This appendix establishes modifications to the FERC approved NERC standard PRC-005-3 for its specific application in New Brunswick. This appendix must be read with PRC-005-3 to determine a full understanding of the requirements of the standard for New Brunswick. Where the standard and appendix differ, the appendix shall prevail.

For the purpose of this standard the term "Bulk Electric System" and its acronym, "BES" shall mean the "bulk power system" as defined in the New Brunswick *Reliability Standards Regulation - Electricity Act*.
